

The Central Steels next stack up against what is considered the strongest colored team in the country, the Marcos of Dayton, in a two-game series at Massillon on Saturday and Sunday. The field is in fair shape again and will be used for practice Friday, for the first time since the rains a week ago. Packard is to be used on the slab Saturday with Munroe working Sunday. The Dayton team uses Brown in center, Cunningham at short, Winfield on second, Taylor at third, Hocker on first, Alexander in left, Lane in right, Webster back of the bat and either Johnson, Williams or Grott in the box. Britt is touted as the best negro twirler in the game.

The noted House of David team from Benton Harbor, Mich., is to be at Massillon on July 4 and 5, with the Akron Firestones playing a twilight game there next Wednesday.
