

## GILKERSON'S GIANTS ON RAMPAGE.

LAKEVIEW, Ia., July 2—The base ball team that Robert Gilkerson has assembled to represent this city has so far piled up a record for continuous wins that cannot be surpassed by any club in the country today. Playing the majority of their games upon foreign territory, they have managed to win 22 out of 24 games played this season. They have scored more than twice as many runs as their opponents, tallied up nearly double the number of hits, and their hitting has been remarkable. Coleman, the veteran first ~~string~~ receiver, has been doing highly effective work in handling the young pitchers on the staff, while Burch and Smith have proven puzzling enigmas to all batsmen who have tried to solve their baffling delivery. The team has traveled throughout all parts of Iowa, North and South Dakota and their sensational playing has

been a revelation to the fans all along the route.

The team has been playing to capacity audiences at all points, and the fans and admirers of the team here, where the Union Giants home Sunday park is located, are so enthusiastic over the progress of the team that the management has encountered difficulty in furnishing the proper accommodation for the huge gathering that comes in from all parts to witness the fast play of the home team. This season has been a grand success, so far, both from a paying and a box office standpoint. The players are working right up to the standard set in former years, and the club looks good to cop the State title of champions in the tournament which will be played soon.

The following is the Union Giants' record against the strongest teams out here this season:
