

CUBANS DEFEAT AMERICAN GIANTS

Scherling's Park, Sunday.—The Cuban Stars defeated Kube Foster's American Giants this afternoon in a game full of hitting and weird playing. Four singles mixed in with two pop fly outs were responsible for the first brace of Cuban runs. The Giants came right back with two out and scored two runs on Mathol's single to right. In the Cubans' third, with the bases full, Adreau sent a long drive to left center. Both Gans and Torrenti started after it and the Cuban, failing to hear Gans yelling that he had it, made a desperate leap. The ball hit his gloved hand, but he failed to hold it, the impact with the flying Gans sending both to the ground. When they recovered and fielded the ball the batter had made third and the bases were cleared of the three men who previously had perched on them. The Islanders added one more in the fourth and another in the fifth. Two two-base hits were responsible for the Giants' tally in the second, and in the third two singles and an infield out put the other over. The home team's final run came in the ninth, with two gone, after J. Brown had strolled. Rice erred on Gardner's error, Marlarcher singled, scoring Brown, but DeMoss popped to Jiminez. The score:
