

DETROIT STARS STRONG

A short swing around the circuit brings out the opinion from the close followers of the form of the various clubs that the team that Blunt has gathered for the present season seems to have an edge that is going to make them the class of the league. Petway is catching and throwing this spring in the form that made him famous some years ago, and the veteran P. Hill is capering like a youth just breaking in. In Wesley the Stars have a grand young player; his ability to hit and ambition to become one of the really great players of the game appears to be near a point of realization. Blunt has one of the best fielding, hitting and run getting outfields on the circuit; his infield is all that could be desired, especially in these days of remodeling of the inner works that is going on in the ranks of all clubs. The Stars are going to have a mighty strong pitching staff, being supplied with classy left hand heavers and in possession of right hand fling-

ers that measure up to the best in class. The Stars so far this season have taken all competitors into camp, and they are right on edge for their opening tilt of the league, which will be staged Saturday and Sunday, May 15 and 16, with a five-game series against the famous Cuban Stars of Havana, Cuba. Just to keep up to their present great form, the Stars play the strong Jackson Independents, a club that has acquired a world of prestige around the semi-pro fields of Michigan.
