

# MONTGOMERY GREYS MEET CHICAGO TODAY

## Interesting Baseball Contest Promised With Coming of Black Sox For a Series

A game that should prove very interesting to the followers of the Montgomery Grey Sox will be played at South Side Park this afternoon when they meet the fast Chicago Black Sox. The Black Sox are one of the strongest teams in the western negro league and the Grey Sox hold about the same standing in the Negro Southern League. So the game should prove to be the best that has been played on the local diamond.

The local team has been playing a good class of ball for the past few weeks and the hitting of the entire team has improved considerably. they have strengthened their claim on the league leadership in the last week by winning four out of five games from

New Orleans and in view of the fact that Knoxville, who has been holding second place has missed about eight games in the last week or two, the locals should be able to hold their own in the race for the pennant.
