Black Oilers Come For Two Games

Dallas bugs will be given their first chance of the season to give the Black Oilers that firey bunch from the city on neches the once over. In the coming of the Black Oilers fans will also see in action one of the strongest Negro clubs south of the Mason and Dixon line. The club has a team of season stars that can be accounted on anywhere and at any time.

The home team is anxious to spring a surprise on the bugs, in the two games with Beaumont, Sunday and Monday, May 16 and 17 by giving the bugs a spank brand new club. Manager Whitaker and his manager are combining the Woods for material with which to build a fighting machine worthy of recognition. Collins has been re-

leased and several others on the club will get the pink slip in time. If the scouts that are now scouring the brushes succeed in landing some good material Giant stock will again soar in Dallas.
