

BLACK BARONS ONCE FAMOUS CUBAN GIANTS

When the Birmingham negro team opens at Hezeman Park Thursday with the Coufields, those who attend these games will see what was practically the "Cuban Giants" in action. Since the "Black Barons" were here last they have reorganized the team and signed a number of the former "Giants."

The Coufields return from their road trip Wednesday a bit lower than they were when they left. They are now in third place with Birmingham only a few points below. Knoxville is still leading and Montgomery is in second place. Coufield says his team is playing just as cool ball as when they were at home last, but hard luck and one or two last-minute let-downs by his pitchers resulted in his losing several games by one or two runs.

When they were here before the Coufields played a cool article of ball and looked to be better than any of the teams brought here.

There are to be four games in the Birmingham series, starting Thursday
