## THE NEGRO BASEBALL TEAMS.

---

In the past five years the Negro baseball teams have advanced 100 per cent. in every way. Last year there was organized among some of the big eastern cities a league consisting of fast colored ball teams. And after the organization had gotten under way, it has proved to be a paying proposition to the owners and managers. There are players on some of the fast eastern teams that receive salaries as high as \$300 per month. And they are playing different cities, the same as the big white league teams. The main Negro league teams for this season will have the Chicago Giants, Leland Giants, St. Louis Giants, West Baden, New York Giants, Cuban Stars, and the Stars of Cuba. And they all have the support of the people.
