There has been no "reflection" against the Keystones in these columns. A mistake was made by stating "that they won 5 games out of a series of four." Should have been "5 games out of (8) two series of 4 each." They are all right, but their manager takes offense at the fact that the Gophers are favored through these columns. I own this paper, and am responsible for all insertions, and that column is a great help if properly quoted, but I will not publish any and everything sent. So keep cool. I know it (the weather) is hot.

**The Keystones, are still making
good in Texas. Stay with them!**

**Don't forget that the St. Paul
Colored Gophers will play their
World's Championship games in St.
Paul this year.**
