## HILDALE COMPLETES LINE-UP FOR SEASON

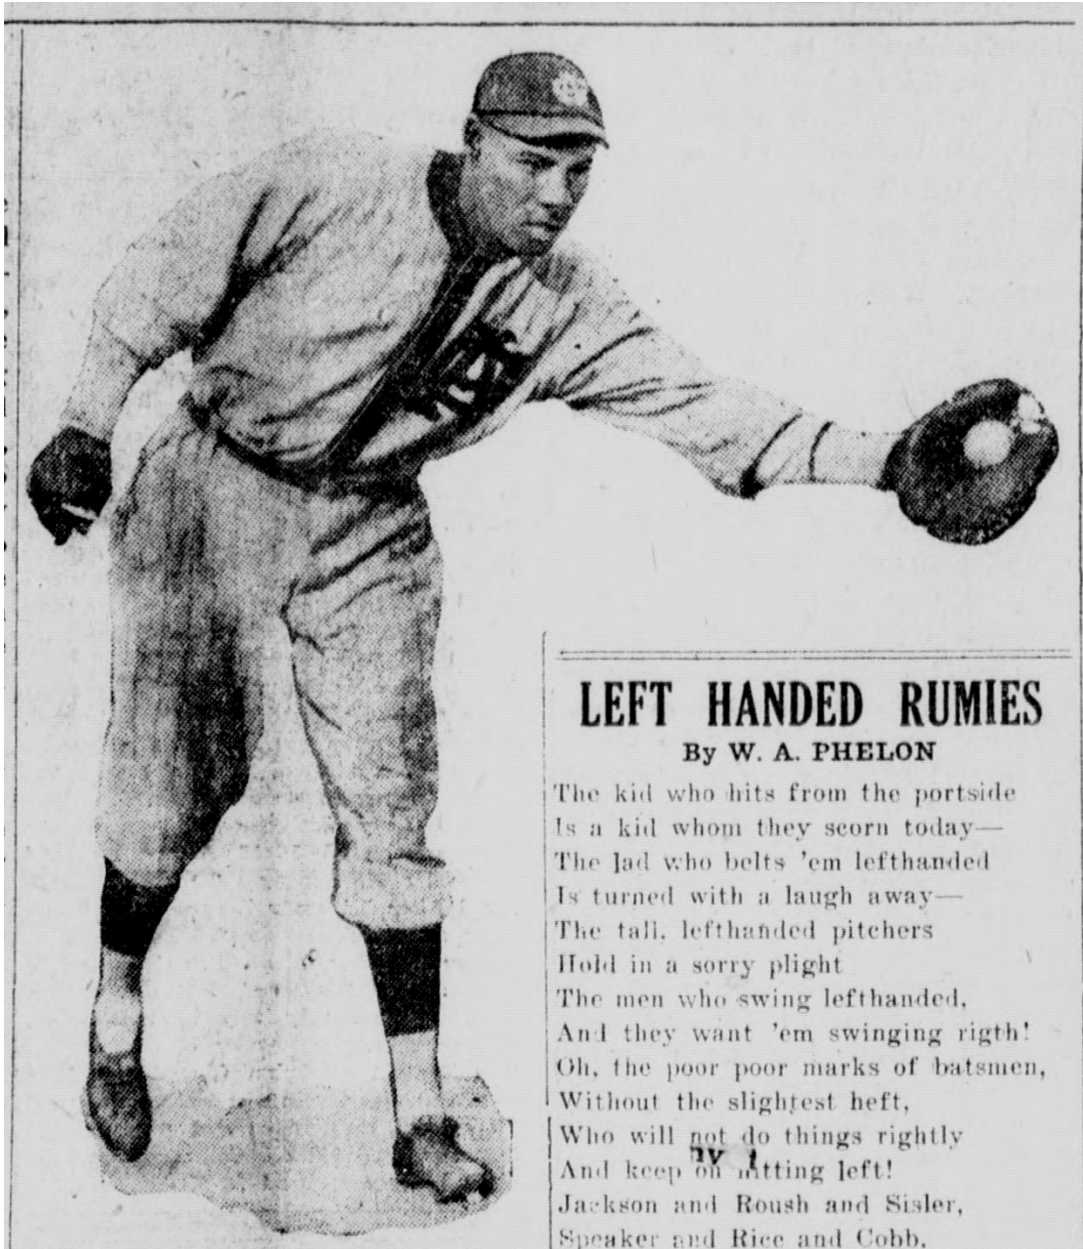

---

(Special to The Whip.)

PHILADELPHIA, March 29.—The management of the Hildale club has now completed the lineup of the baseball team for 1920. The signing of Louis Santop, the big catching star, rounds out what appears to be the strongest semi-professional lineup in this section of the country. Santop is a star who is known all over the country for his heavy hitting powers as well

as his ability behind the bat. He played with Hilldale in 1918, but last year he managed the Brooklyn Royal Giants after being discharged from the navy well after the season had started.

This year Hilldale will initiate a new move among semi-professional teams. That is, they will operate three parks, Camden and Wilmington, in addition to their home grounds in Darby. The management has leased the Camden A. C. grounds, at Third and Erie streets, Camden, for Wednesday afternoon ball games. They will open the park there on May 26th, by playing the New York Shipbuilding team. The following Wednesday, June 2nd, they have booked the famous Klein Chocolate team. With such games as these in view baseball across the river should take on a new aspect, as the management plans to furnish nothing but the best attractions at all the parks.

## LEFT HANDED RUMIES

By W. A. PHELON

The kid who hits from the portside  
Is a kid whom they scorn today—  
The lad who belts 'em lefthanded  
Is turned with a laugh away—  
The tall, lefthanded pitchers  
Hold in a sorry plight  
The men who swing lefthanded,  
And they want 'em swinging righth!  
Oh, the poor poor marks of batsmen,  
Without the slightest heft,  
Who will not do things rightly  
And keep on hitting left!  
Jackson and Roush and Sisler,  
Speaker and Rice and Cobb,

**This is Grant, the great First Base-  
man of the American Giants — he  
has signed up for the following sea-  
son with Rube Foster and will be wel-  
comed back at his old stand by his  
many admirers.**
