

SPORT.

That the Negroes of Nashville are to have a first-class baseball park is now a fact. The Globe man has learned that this park is to be completed as soon as the weather will permit and that it will be within four or five blocks of the square and that three car lines are within a block of the gate. There is no doubt but that this is a step in the right direction. The Negroes are ready and waiting for such a place and the promoters of the park are to be congratulated upon such a movement. There is already a movement on foot to get the towns around Nashville together and to have first-class baseball all the summer. The Globe will do all in its power to get the managers of the different teams to get them in shape for have first-class baseball and they are the coming season. Let the people

willing to pay for it. There is no reason why a park should not be made a paying investment; other towns not so large as Nashville have them and they are kept busy all season. Now let the managers of all the teams get busy. The park will be open to them at any time they desire to play. We are ready and willing to publish all news matter concerning base ball, and to do all we can to push the sport. The Globe has received letters from the following towns: Columbia, Lebanon, Clarksville, Decatur. All state that the prospects point to a winning team. Now let us hear from Nashville. Get together, boys, put up that old brand of ball that has made Nashville famous. You have the prayers, just get them together and you will have a first-class team that will bring home the bacon. The Globe is with you.

Address all matter to,

J. BLAINE BOYD,

Sporting Editor Nashville Globe.

It is with great pleasure that the Fans learn of getting together of the schools in a baseball League. The Globe man learned that the League has gone into permanent organization, and that officers have been already elected and that a report from the committee on by-laws will be ready at the next meeting. It is to be hoped that the organization will have a long and happy life and that the schools will remember that "In Union there is Strength."
