

The Colored Gophers play at Alexandria June 22 and 23 and then come here for two games. The series will be of interest as it will give a line on the Alex and Long Prairie teams.

The Colored Gophers defeated Hibbing in St. Paul on Friday and Saturday in two fast games. The first score was 9 to 8 and the second game went eleven innings, ending 5 to 4 for the colored boys.

There are some good games in sight for the fans. On June 25 and 26, the Colored Gophers come here for a series. They are very fast. They have just defeated Hibbing in two games by close scores. They will try their best to put Johnson and his men to the woods as Johnson formerly captained them and they will want to show him that he made a mistake in not signing with

them this season. On Sunday, June 27, the team goes to St. Cloud for a game that promises to be a hummer. St. Cloud has been beating everything in its neck of the woods. It is probable that a special train will carry the rooters to the Granite city. The next day the team goes to Morris for a game with the Wahpeton team and will then return here for a series lasting over the Fourth. The team for this series is not known as yet. Several city teams have applied for the games but the local management will book only a first class team so that the fans may be enabled to see something good. During July, the schedule is unusually complete, there being several games every week with lots of requests now for additional games.

In July Alexandria is played a series of four games, two on the home grounds of each team. The

latter part of the month the team will leave for a tour of the Iron Range country, starting the trip with a series of five games at Hibbing. They may be gone two weeks and on the trip will play the leading teams of that section of the state.
