

The Cuban Stars, one of the teams that will be constantly traveling over the new circuit, send word that they have just been awarded the championship of the winter league on the island. The players are in tiptop form and will sail in a week or ten days for the States. The Cubans are coming by the way of Tampa and will not make the tour through the Mexican country, as they did last season. According to reports, the islanders are bringing the strongest team that ever came out of that territory. Realizing that they will have to travel much and will face tough foes each day, the foreigners are coming well fortified and say they are going to tuck the little championship bunting away and cart it back with them to Cuba.
