

MILLVILLE MAY HAVE TWILIGHT BASEBALL

Game With Hilldale or New York Ship May Be Played Wednes- day Evening.

The local baseball management is endeavoring to arrange a twilight game to be played in this city Wednesday evening with either the New York Ship team or the strong Hilldale colored aggregation.

The Bacharach Giants are playing the Brooklyn Royal Giants at Inlet Park all this week and consequently will be unable to come to Millville Wednesday.

However, either Hilldale or the New York Ship team should be good attractions. Hilldale has been for the past three years the best colored team in the East. This year, however, the Bacharach Giants have strengthened their club and with Redding

pitching, it will take a mighty good ball club to get away with them.

New York Ship is quite well known among local baseball fans. Last year Milt Walker who is now playing with the locals was with them and this year Mark who caught for Millville in 1917 is doing the backstopping for the ship team.

The determination to try out twilight games was decided upon in order that all may have an opportunity of viewing the contests. The employees of the factories will be given a chance of looking at some good baseball.

On Saturday the Royersford Foundry and Machine Company of Royersford, Pa., will send their strong ball club to this city. While this team is not generally known by Millville fans it is one of the strongest combinations in that section of the State and the locals will no doubt have to step a bit faster than usual if they get away with the game.

The Bacharach Giants walloped Logan Square three out of four games. Swigler won and lost one game to the seashore crowd. Sunday they gave him a terrible lacing.
