

# HORSEY TO PITCH FOR GLOBE TIRE

**Former Tri-Stater Will Oppose  
Brooklyn Giants Tomorrow  
at Globe Field**

When the Brooklyn Royal Giants appear at the Globe Tire Field, Prospect Street and Pennington Avenue, tomorrow, they should meet a moundsman capable of holding them well in check, for in Hansen Horsey, the former Trenton Tri-State favorite, who has just been signed, they have one of the best twirlers out of the big leagues.

Tommy O'Hara has spared no expense in gathering a machine of ball tossers to uphold the Globe colors and afford the spectators a run for their money. He realizes that winning this game will give his club a standing in this community never obtained by a local team since the old Y. M. C. A. days.

Everything is in readiness for the day, a new bleacher has been erected that will comfortably seat 1,200 more people. The playing field is in first class condition. Automobilists will find parking ground in right field with an attendant to care for the machines. Spectators will be afforded the best service the Mercer County Traction Corporation can give, for extra cars will be run before and after the game on both the Prospect Street and Pennington Avenue lines.

The idea of starting the game at 4:45 is to allow the workmen to see the game.

Lennie Frost will do the receiving; Red Justice will cover first base; Billy Lloyd, second base; Jimmie Travis, third; Andy Warner, short; Hillbourn, McKee and Warwick, outfielders.

Harry Adams, of Philadelphia, has been retained to officiate.

One of the biggest crowds of the season should pack the West End grounds, for a battle for victory is sure to result.
